## This week at Cowbridge School ...

At Cowbridge School, we are committed to providing a rich and diverse educational experience for all students, balancing significant reflective moments like the Remembrance Service, which took place on Tuesday this week, with academic challenges and extra-curricular opportunities.

The entire school community, along with representatives from the Local Authority, our Board of Governors, and the local community, gathered for our Whole School Remembrance Service. It was a deeply poignant and respectful occasion that provided all students with a significant opportunity for reflection and remembrance. Such events are vital in fostering a sense of history, community, and respect across all year groups, reinforcing the core values we strive to embed in our students' education. An article written by Poppy R., our Head Girl, provides more details about

this event - click on the link on the right to view it.

In addition to this important collective experience, we saw our commitment to academic excellence - and the challenge of some of our highest attaining students - demonstrated in the UKMT Senior Team Challenge. Four of our talented Sixth Form students travelled to Swansea to represent the school in this prestigious mathematics competition. Taking part in challenges of this nature not only tests their problem-solving skills and teamwork but also exposes them to advanced mathematical concepts in a stimulating and competitive environment.

The week was rounded off with our "Funky Feet" event for Children in Need. Read more about this worthwhile event by clicking [here](#).

*Have a great weekend!*
