

Cowbridge Lower School Newsletter

Our value for consideration this week has been forgiveness. A mature skill to develop not only identifying when we need to say sorry and being brave enough to say it but also forgiving those who may have apologised to us.

It has been a big week in Nursery and Reception this week as we have seen just how green our fingers really are. On Tuesday, it was Potato Day which meant it was time to dig up our potatoes.....and what a surprise we had!! We were aiming to beat last year's record of 50. Our counting skills really were put to the test as we unearthed what we had grown. We could not believe our eyes as we dug and dug and found more and more and more potatoes! At the final count we had found we grown 73 potatoes...a Cowbridge Lower School record!

We asked Mrs. Coleman to cook them for us and we enjoyed a delicious home-grown potato picnic for snack. We really do feel very proud of ourselves and our very green fingers.

As well as all this potato fun there has been a bustle of activity as we have also been busy hand-crafting gifts to share with "Someone Special" this weekend.

There has been much excitement in Year 1 also this week... a message from space! Apparently the engine of the spacecraft needs repairing but only magnetic materials can be used. Pupils were set the challenge to find suitable magnetic objects that could be of use. They have also read the story "Beegu" and explored the use of appropriate adjectives to describe the feelings of Beegu after their space craft also crash landed.

Year 2 have had a visit from Captain Cook! They were asked to draw a picture of his ship "Endeavour" and to write a report for the king on creatures that Captain Cook found after discovering Australia for the first time. They have also been constructing and interpreting data from pictograms.

We hope all our "Someone Special" enjoy their gifts and a relaxing long weekend. See you at Sports Day next Friday!
