Cowbridge Lower School Newsletter

2.10.26

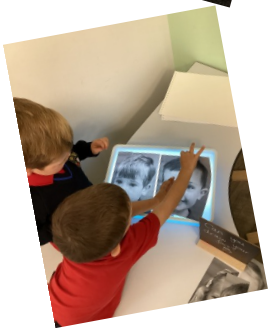

Lower School has had the pleasure of experiencing an array of poetic delights this week as they recognised National Poetry Day. It is celebrated on the first Thursday of October every year and the theme this year is "Wonder". National Poetry Day aims to inspire a love of poetry and this annual event provides a fantastic opportunity to explore and celebrate poetry. Through the theme of "Wonder and Local Community" pupils have been able to observe, reflect and write about the significance of places, people and moments that are often overlooked whilst developing their own unique voice as poets along the way.

Nursery have had great fun learning and reciting some well known rhymes and poems, whilst Reception have written their very first poems to be shared at our "Someone Special" celebration next week. In Year 1, the emphasis has been on poetic performances in conjunction with their superhero and onomatopoeia skills. Year 2 have taken a cerebral angle to their poems as they wonder just exactly what is going on inside our brains. Year 3 experienced a senses walk and then wrote their poems of wonder.

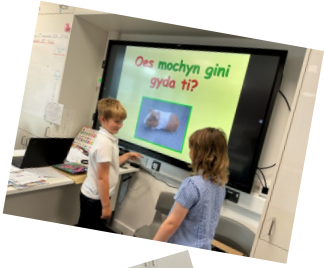

Along with this poetic prowess there has also been time for Nursery to discuss and understand the importance of routines both at home and in school and wonder how the passing of time helps us navigate our way through the day. They have also been creating some very special gifts ready for their "Someone Special" celebration next Wednesday.

The Reception classroom has also been a hive of activity as finishing touches are being put to unique handmade gifts of appreciation.

Year 1 have continued with their study of pop art, this week, transferring their artistic skills to the written word of onomatopoeia and using their own personal artistic licence to illustrate.

Year 2's brain pursuits have led them down a creative route as they worked collaboratively to create a brain through collage and composition-it really is a sight to behold!

Year 3 have continued their Munch artwork and photographed facial expressions ready for painting next week. In Welsh, they have completed questionnaires about pets and finished place value work in maths by counting in 50s.
