Cowbridge Lower School Newsletter

9.10.26

It has been a week of recognition in Lower School this week….recognition of hard work, perseverance and the people we love. The week began with a very special assembly during which Ben James from Cowbridge Library visited. He was so impressed with the committed efforts from Lower School pupils over the summer towards developing their reading skills, he came in-person to present the Summer Reading Challenge certificates. A huge congratulations to all those who participated, we are so proud to see your endeavours rewarded….roll on the next Summer Challenge!

Nursery and Reception continued their recognitions by acknowledging all the "Someone Specials" in their lives with a party! It was wonderful to see so many special people able to attend what is now becoming a much-loved annual Lower School tradition. This special occasion gives us the opportunity to recognise and celebrate the wonderful bonds between our children and their wider family members, while acknowledging the important role they play in the structure of family life and in nurturing, supporting and educating our children. Our celebration is just a small token of our appreciation and a way of honouring and expressing our gratitude for the unconditional love, support, guidance and encouragement that you give to our children. We truly hope you enjoyed the celebration as much as we enjoyed sharing it with you. Thank you for being such an important part of our children's lives.

Year 1 have been using their super senses to investigate and discover what was hidden in the boxes. They have also been inventing their very own superheroes giving careful consideration to their name, which superpowers they will have and how they will help anyone in distress.

It has been all about healthy and unhealthy foods in Year 2 this week. They have carried out their own food surveys to determine who likes what, ready for their smoothie making sessions next week. They have also created their own smoothie recipes and written instructions how to make them.

This week has seen the final part of Y3's Edward Mvnch study as they painted their own expressionist art in the same style. Maths skills have continued to develop with more times tables and using existing knowledge of smaller numbers to add larger numbers.

Next week we will be participating in World Food Day. If anyone has any worldwide culinary talents they would like to come and share with pupils we would love to hear from you.
