Cowbridge Lower School Newsletter

6.11.26

Our first week back has certainly started with a bang!! The antics of Guy Fawkes provided us with the perfect discussion topic for our value of safety this week. It was extremely reassuring to see all pupils taking heed of the safety deliberations and returning to school in one piece after the firework fiestas.

It certainly was a wonderful Wednesday as we were invited to party on the piazza with MFL. We were treated to an array of delectable delights from around the world. Our taste buds were most definitely tantalised as we practised our language skills asking and thanking for the treats. A huge danke/merci/diolch to Team MFL who, yet again, made our learning of new languages so much fun.

Friday saw our school community come together as we remembered those who had jeopardised their own safety and bravely fought for all our freedoms. Reverend Angela Cooper officiated a service in the Remembrance Garden especially for Lower School pupils. Pupils also laid class wreaths which they had made.

In our classrooms….

Nursery have helped light up the sky by making fireworks for Little Glow who found himself in a very dark night sky over Cowbridge.

As well as firework fun, Reception learnt about Diwali. The story of Rama and Sita explained why Diwali is celebrated. Pupils then decided to decorate their own divas, make Diwali cards and create Rangoli and Mehndi patterns using chalk, paint and felt pens. Most of all they had a fabulous time at their firework/Diwali party dancing and exploring firework movements.

Year 1 have been looking into Bonfire Night in more detail to gain a deeper understanding of exactly why it is celebrated. They used their creativity and imagination to re-tell the story to their friends using resources of their choice. They also depicted their own interpretations of Bonfire night through art and 3D model making.

Story telling skills have been the focus in the Year 2 classroom this week. After exploring time connectives, they applied these skills to re-tell the story of Guy Fawkes.

There have been problems galore in Year 3, of the mathematical variety. As well as researching different types of skeletons they have explored adverbs to enhance their sentence writing.
