

Cowbridge Lower School Newsletter

Lower School Easter preparations have begun in earnest this week and what better spring weather to start them in!

Our observational skills have been put to the test in order to produce some beautiful still life artwork. We have also been very creative with our framing technique, we think you will really like them! We have learnt new skills of weaving and sewing to produce even more Easter surprises. We can't wait to welcome you to our Easter Eggstravaganza next Thursday.

Our dinosaur topic has also continued and we can't wait to find out what our dinosaurs have been up to over night-they really do like to get up to all sorts of mischief!

Nursery are enjoying practising their letter recognition in the sunshine as well as their counting skills-counting and recognising the number of petals on the flowers. They also used their bodies to explore the movements of baby animals.

Reception made a graph to show the favourite dinosaurs in their class. They also used invention skills to invent and create their own dinosaurs using any medium they wished. Finally they made a poster so the baby dinosaur knew exactly how to keep herself clean whilst having lots of fun on her adventures.

Year 1 have been making dinosaur fact files and have been so excited to share the interesting facts they have learnt.

They have applied their maths skills to solve dinosaur height and length problems and created a set of road safety instructions to help their baby dinosaur stay safe on its adventures.
