9.5.25

Another busy, if some what compact week this week.

We were so lucky the sun was shining on us on Thursday. Such a wonderful day seeing and celebrating all things outdoors with you whilst at the same time remembering and giving thanks for all the bravery of the past and those who continue to be brave today for our future.

The pupils had done an outstanding job of planning all the fabulous, fun activities to make it such an enjoyable and memorable experience. We hope you enjoyed it as much as we did.

As well as all of this we even had time to continue our learning with our class topics.

Nursery have been thinking about their garden and what is needed to grow one. They have planted a variety of seeds and now can't wait to see just how green their fingers actually are! They also learnt about the life cycle of a plant and used their bodies in P.E. to show how a plant grows.

After spotting a 1-legged seagull on their explorers' adventure, Reception have decided to set-up a minibeast hospital so they can help any injured minibeasts/animals. They had great fun making all their own minibeasts ready to operate on in their hospital. They have also learnt about the life cycle of a caterpillar and explored repeating caterpillar patterns.

Year 1 have been thinking about animals and what they look like. They have created their own inspirational animal artwork using their own individual artistic licence to create some unique masterpieces. They have also been wondering just exactly how did the leopard mange to get his spots ?
