

# Cowbridge Lower School Newsletter

11.7.25

There was much excitement and anticipation in Lower School on Monday as we were going to find out who our new teachers in September were going to be. We all gathered excitedly in the hall waiting eagerly to find out the news. There were not only new friends to meet but a new teacher also. We welcomed Miss Dando, our new Year 2 teacher, to Cowbridge School.

After discovering who our new teachers were going to be we spent the morning exploring and familiarising ourselves with our new classrooms. Such a fabulous way to start the week...meeting new friends and teachers in our new classes! Everyone had a wonderful time becoming familiar with new spaces and new faces.

The rest of the week was spent back in our current classrooms.....

Nursery have been talking about and recording their favourite time in Nursery. They have also been thinking about how they have grown and changed. They had a terrific time at their colour party, celebrating all things blue, pink and yellow. Yet again they looked wonderful in all their colourful clothes-huge thanks to the grown-ups who helped to make this possible.

Reception have also spent the week reflecting on their year in Reception. We had a lovely trip down memory lane looking at all the photographs of all the fun and learning we have had together over the year. We reminisced about our favourite memories, thought about how we had changed and how much we had learnt since September-we couldn't believe how much we had learnt! Looking forward to Year 1, we wrote a postcard to Mrs. Hudson-Moore saying "Hello" and telling her something important about ourselves that we think she should know.

Year 1 have also been thinking about the passing of time, using the clock face to develop their time telling skills. They were programming floor robots to go in different directions and just in case they were lucky enough to travel into space.....they made an astronaut helmet! On a more sombre note Alan the Alien bid them a fond farewell and thanked them for all the amazing work and adventures they had completed together. After repairing his spaceship, he has now jetted off to Mars to be with his family once again. Safe journey Alan!
